Mr. Sargent Shriver
Rockville, Md.

Dear Mr. Shriver,

I hope that after reading my book you will believe that my dedication to that wonderfully-expressed challenge in the late President's inaugural address was not limited to my "Geese For Peace" project.

If after reading the book you have any questions I can answer, or if you'd be interested in any opinions I may have that are not in the book, please let me know. And should you doubt this is a solid work, please thumb through the photographic documentation beginning with the end of chapter 13. I can refer you to a number of people who have gone over the book with some care whose judgement I believe you will trust if you wonder whether it is worth your time.

May I suggest you may conclude that I am, in effect, the advocate for those in whom you might want to be?

Sincerely,

Harold Weisberg
